TABLES

Table No.

Page No.

1. Federal order minimum class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, and butterfat differentials, May.	4
2. Federal order minimum Class I and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January-May averages.	6
3. Number of producers delivering milk to handlers regulated under Federal orders, total deliveries, and average daily deliveries per producer, May	8
4. Producer milk deliveries used in Class I and Gross Class I sales by handlers regulated under Federal orders, May.	10
5. Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I, January-May.	12
6. Total fluid items, whole milk, skim milk items, milk and cream mixtures, and cream sold in marketing areas defined by Federal milk orders, for markets where such information is available, April, with comparisons	14
7. Federal milk order Class I formula price information, May.	18
8. Prices and economic indexes used in Federal milk order formulas to determine May prices, with comparisons	19
9. Federal order base and excess prices for milk of 3.5 percent butterfat content, May.	20
9a. Seasonal incentive fund included under various Federal milk orders, May.	20
10. Milk deliveries, by State of origin, to handlers regulated under Federal milk orders, 1963 and 1964.	21

MAJOR ORDER ACTIONS, MAY 1965Amendments:

Eastern South Dakota - May 1 (30 FR 4111, 3/30/65). Action merges and expands the Eastern South Dakota and Sioux Falls-Mitchell markets. In-area distribution requirement for pool plants is increased from 10% to 15%. Class I price is the basic formula price for the preceding month plus \$1.30, adjusted by the amount by which the Minneapolis-St. Paul supply-demand exceeds 10.5¢. Class II price is the Minn.-Wis. price. Changes in pool plant, location adjustment and classification provisions; other conforming changes.

Mississippi - May 1 (30 FR 4181, 3/31/65). The Mississippi marketing area includes the former Miss. Delta and Central Miss. marketing areas, Beat 2 of Lamar County and the Kessler Air Force Base. Basic formula price is the Minn.-Wis. price. Class I price for May-July 1965 is the basic formula price for the preceding month plus \$2.26; and, for the period August 1965-October 1966, the Class I differentials will be: \$2.15 for March-July and \$2.35 for August-February. Class II price is the lesser of the basic formula price (less 10¢ March-July) or the Class II price in the New Orleans market. Revisions in all major provisions.

Rio Grande Valley - May 13 (30 FR 6573, 5/13/65). Action provides for diverted milk to be priced at the pool plant from which diverted, when the farm on which the milk is produced is located within the marketing area; and, at the nonpool plant where received, when the farm on which the milk is produced is located outside the marketing area. Revision of handler definition and other conforming changes.

Southeastern Florida - May 1 (30 FR 3748, 3/23/65). Action reduces in-area distribution requirement for pool plants from 20% to 10%. Class and uniform prices are announced on a 3.5% instead of a 4.0% butterfat basis. Class I price changed from \$7.00 to \$6.625 per cwt. (plus or minus a supply-demand adjustment), due to the lower butterfat basis.

Tri-State - May 1 (30 FR 6111, 4/30/65). Action discontinues the Pikeville-Paintsville pricing district. Amendment establishes uniform monthly Class I differentials in each pricing district; and, establishes a seasonal take-out and pay-back plan for paying producers.

Suspension:

Wheeling - May 25 (30 FR 6975, 5/25/65). For the months of May-August 1965, suspension allows a supply plant to qualify for pooling under the same requirements that apply during the months of September-January.

HighlightsMay 1965

Producer Deliveries. A total of 151,187 producers, 9,020 fewer than in May 1964, delivered 4.9 billion pounds of milk to regulated handlers in 69 comparable markets during May 1965. This represents a decrease of 0.1 percent below producer deliveries during May 1964. Average daily delivery per producer increased from 994 pounds in May 1964 to 1,052 pounds in May of this year. Producer numbers, producer deliveries, average butterfat percentages, and average daily deliveries per producer for individual markets are shown in table 3.

Producer Deliveries Used in Class I. The volume of producer deliveries used in Class I in 69 markets increased 1.2 percent from last year to a total of 2.7 billion pounds for the month of May 1965. The average utilization percentage for May was 54 percent, unchanged from last year. Twenty-eight markets showed an increase in the utilization percentage, ten showed no change, and the remaining 31 markets showed a decrease (see table 4).

Gross Class I sales, which comprise total Class I sales by regulated handlers, in-and-out of defined marketing areas, increased 1.3 percent in the 69 markets for the month of May.

Minimum Prices. The weighted average Class I price paid by handlers in the 69 markets for 3.5 percent milk was \$4.59 per hundredweight, seven cents higher than the \$4.52 per hundredweight price in May 1964. Minimum Class I prices in May were higher in 59 markets, unchanged in one market, and lower in the remaining nine markets.

Producers in the 69 markets received a weighted average blend price of \$3.90 per hundredweight for 3.5 percent milk. This is nine cents higher than the May 1964 blend price of \$3.81. Producers received higher blend prices in 54 markets, the same price in one market, and a lower price in the remaining 14 markets. Class prices, blend prices, and associated butterfat differentials, by market are reported in table 1.

Whole Milk Sales. Total in-area whole milk sales for May 1965 in 69 marketing areas are estimated at about 2.0 billion pounds, 0.2 percent above such sales in May of last year. Complete April in-area sales for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream), are reported in table 6.

YEAR TO DATE

Minimum Prices. The weighted average Class I price for the January-May period for the 69 markets was \$4.83, five cents higher than the \$4.78 price in 1964. The 1965 weighted average blend price was \$4.15, six cents higher than the blend price of \$4.09 reported for this period in 1964 (see table 2).

Producer Deliveries and Deliveries Used in Class I. Milk deliveries and deliveries used in Class I are reported for individual markets in table 5. In the first five months of this year, compared to the same period in 1964, producer deliveries for the 69 markets were up 1.6 percent, and deliveries used in Class I were up 1.7 percent. Data for the 69 markets and for all markets are summarized below:

Producer Milk Deliveries and Deliveries Used in Class I, January-May

Markets	Producer deliveries			Deliveries used in Class I		
	1965	Change from 1964 1/		1965	Change from 1964 1/	
	1,000 lb.	1,000 lb.	Percent	1,000 lb.	1,000 lb.	Percent
69 Comparable markets 2/	22,899,477	+366,825	+ 1.6	13,627,567	+225,525	+ 1.7
6 Expanded markets*	1,002,854	- 19,687	- 1.9	758,441	- 20,273	- 2.6
75 All markets	23,902,331	+347,138	+ 1.5	14,386,008	+205,252	+ 1.4

* Columbus, Louisville-Lexington-Evansville, Paducah, Nashville, Mississippi, and Red River Valley.

1/ February 1964 data adjusted to 28 days before computing changes in both pounds and percentages

2/ Markets under continuous regulation since January 1, 1964, which have had no significant marketing area expansion.

1/ Volumes include 29-day totals for February 1964. The percentage changes are based on adjusted 28-day totals for February 1964 to make them comparable with 1965.

2/ Markets under regulation on January 1, 1964, and which have had no significant marketing area expansions. Excludes Columbus, Louisville-Lexington-Evansville, Paducah, Nashville, Mississippi, and Red River Valley.

3/ Class I plus Class II = 2,584,885 thousand pounds in 1965 and 2,606,291 thousand pounds in 1964; utilization = 48 percent in 1965 and 50 percent in 1964.

4/ Fluid cream included in Class I, effective April 1, 1965. Class I plus fluid cream = 1,015,548 thousand pounds in 1965, utilization 38 percent (includes fluid cream, January-March, 22,512 thousand pounds); Class I plus fluid cream = 1,018,162 thousand pounds in 1964, utilization 37 percent (includes fluid cream January-May, 38,994 thousand pounds).

5/ January-April 1965 data are for the former Mississippi Delta market. Effective May 1965, data is for the Mississippi market. January-May 1964 data are combined for the former Mississippi Delta, Central Mississippi, and Mississippi Gulf Coast markets.

1/ Total deliveries of milk by producers in each State to handlers regulated under Federal milk orders.

2/ Computed from data reported in "Milk Production, Disposition, and Income," 1963-64.

3/ Less than 500 thousand pounds.

4/ Less than one-tenth of one percent.

RECEIPTS AT FEDERALLY REGULATED PLANTS IN 1964 WERE 47.8 PERCENT
OF THE UNITED STATES TOTAL

In 1964, approximately 168 thousand producers delivered 54.4 billion pounds of milk to handlers regulated under 77 ^{1/} Federal milk marketing orders. This represented 47.8 percent of all milk delivered to all plants and dealers in the United States.

Deliveries to Federal order plants ^{2/}

Year	:	Total	:	Percentage of milk delivered to all U. S. plants
	:	Million lb.	:	Percent
1956		31,380		32.9
1957		33,455		34.0
1958		36,356		36.5
1959		40,149		39.8
1960		44,812		43.2
1961		48,803		45.1
1962		51,648		46.7
1963		52,860		47.6
1964		54,405		47.8

These data are one measure of the increasing significance of the Federal milk order program relative to the total dairy industry and illustrate the growth of the order program.

For the 45 States in which milk was sold to Federally regulated plants, the percentage of total whole milk sales to plants and dealers varied from a low of one-tenth of one percent in North Carolina to a high of 100 percent in the States of Connecticut and New Jersey. In six other States - Massachusetts, Rhode Island, Maryland, Colorado, New Mexico, and Arizona - more than 90 percent of all producer deliveries were made to Federally regulated plants. Producers in 17 States, including those already mentioned, plus Vermont, New York, Delaware, Ohio, Indiana, Michigan, Oklahoma, Texas, and Washington, sold over two-thirds of their total marketings to plants and dealers, to handlers regulated under Federal orders.

No milk was sold to Federally regulated plants by producers in the five States of South Carolina, Montana, Oregon, Alaska, and Hawaii. A very small proportion - less than five percent - was delivered to Federal order plants by producers in each of the States of North Carolina, Georgia, North Dakota, Alabama, Nevada, and California.

By region, Federal order marketings were most important in the New England and Middle Atlantic States, in which they represented 78.2 percent and 79.1 percent, respectively, of total sales of whole milk. Except for Alaska and Hawaii, Federal order marketings were least important on the Pacific Coast where they represented only 13.5 percent of all marketings to plants and dealers.

^{1/} Number of Federal order markets, December 31, 1964.

^{2/} Statistical Bulletin No. 248, "Federal Milk Order Market Statistics," and Supplements for 1957-58, 1959, 1960, 1961 and SB Nos. 335, 345, and 361 for 1962, 1963, and 1964.
